DE LAUSANNE

## *Vois la vie en Rose !*

**Two workshops in the nursery/classroom** with the themes of pink and shapes.

Perceiving the richness of a word, e.g. “pink”: the flower/colour to arrive at the pink rose;

Stimulating the discovery of shapes (circle and square).

**Two workshops in the choir of the cathedral** with the themes of forms in situ and the content of the rose window.

Experimenting with different levels of reality: the concrete world/the spiritual world;

Working together to design a rose by making a collage of shapes;

Learning about the four seasons through the medallions of the rose.
